

Same-time irradiance estimation versus pvlib clear-sky

Clean-sensor months (Jan, Feb, Nov, Dec 2023)

Daily mean irradiance across 2023

ML same-time estimation approximately halves irradiance error relative to pvlib clear-sky: MAE 109.3 vs 214.1 W/m², R² 0.735 vs 0.132. Evaluated on clean-sensor months only (Jan, Feb, Nov, Dec 2023).
